INCOMPLETE GRADE POLICY

Grades of “I” are to be assigned only because of sickness or some other unavoidable cause, not merely for missed assignments. Therefore student clinicians cannot receive an incomplete if forms are not turned in on time. The student will receive a grade of “U,” if all paperwork is not completed. The period of time before a grade of “I” defaults to a grade of “U” is one semester. Students do not re-register for a class in which a grade of “I” was earned.

A student receiving a grade of “I” may count the clinical clock hours earned during the semester. A student receiving a grade of “U” or dropping a clinical practicum course may not count the clock hours.
