THERAPY MATERIALS

Therapy materials and a limited number of supplies are stored the observation and treatment rooms. Check-out is not required for materials in these rooms. Therapy programs are available in University Hall room 123A and must be checked out, according to the rules of check-out given under “Tests.”

When materials in sets (articulation cards, etc.) are used, the entire container should be taken. Items used during a session should be returned to their proper location, in the container. Materials should be returned to their proper place on completion of the session(s) in which they were used. **Materials may not be taken from the Preschool Language Classroom (PLC).**

**Tests and therapy materials may not be checked out for off-campus use,** unless there is a request on letterhead from the site clinical educator. There is a 2-day limit for usage. The clinical educator only may request one item at a time. There are no exceptions. The letter should be addressed to the Clinic Director.
